--The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

THE REPLY FILED 07 November 2007 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE.

1. ☒ The reply was filed after a final rejection, but prior to or on the same day as filing a Notice of Appeal. To avoid abandonment of this application, applicant must timely file one of the following replies: (1) an amendment, affidavit, or other evidence, which places the application in condition for allowance; (2) a Notice of Appeal (with appeal fee) in compliance with 37 CFR 41.31; or (3) a Request for Continued Examination (RCE) in compliance with 37 CFR 1.114. The reply must be filed within one of the following time periods:

- a) ☐ The period for reply expires _____ months from the mailing date of the final rejection.
- b) ☒ The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection.

Examiner Note: If box 1 is checked, check either box (a) or (b). ONLY CHECK BOX (b) WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).

Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

NOTICE OF APPEAL

2. ☐ The Notice of Appeal was filed on _____. A brief in compliance with 37 CFR 41.37 must be filed within two months of the date of filing the Notice of Appeal (37 CFR 41.37(a)), or any extension thereof (37 CFR 41.37(e)), to avoid dismissal of the appeal. Since a Notice of Appeal has been filed, any reply must be filed within the time period set forth in 37 CFR 41.37(a).

AMENDMENTS

3. ☒ The proposed amendment(s) filed after a final rejection, but prior to the date of filing a brief, will not be entered because

- (b) ☐ They raise the issue of new matter (see NOTE below);
- (c) ☒ They are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or
- (d) ☐ They present additional claims without canceling a corresponding number of finally rejected claims.

NOTE: See Continuation Sheet. (See 37 CFR 1.116 and 41.33(a)).

4. ☐ The amendments are not in compliance with 37 CFR 1.121. See attached Notice of Non-Compliant Amendment (PTOL-324).
5. ☐ Applicant's reply has overcome the following rejection(s): _____.
6. ☐ Newly proposed or amended claim(s) _____ would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s).
7. ☒ For purposes of appeal, the proposed amendment(s): a) ☐ will not be entered, or b) ☒ will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended.
- The status of the claim(s) is (or will be) as follows:
- Claim(s) allowed: _____.
- Claim(s) objected to: _____.
- Claim(s) rejected: 1-7, 9, 10, 14-16, 18 and 19.

See 37 CFR 1.116(e).
9. ☐ The affidavit or other evidence filed after the date of filing a Notice of Appeal, but prior to the date of filing a brief, will not be entered because the affidavit or other evidence failed to overcome all rejections under appeal and/or appellant fails to provide a showing a good and sufficient reasons why it is necessary and was not earlier presented. Continuation of 3.

NOTE: Applicant's arguments with respect to the claims 1, 9, 16 and 19 have been fully considered but they are not persuasive.

Applicant argues the following:

(a) Richards does not teach arranging the plurality of elements in accordance with a predetermined order of linguistic structural components and sorting the plurality of help files based at least in part on a taxonomic category assigned to said element; and

(b) Moore reference does not teach of an action element which is delineated as being affiliated with more than one taxonomic category and assigning a second taxonomic category to a first word selection from a set of word selections.

The Examiner disagrees for the following reasons.

Per (a), Richards discloses arranging the plurality of elements in accordance with a predetermined order of linguistic structural components (such as the identified base words are used as references into a predefined rule set which inherently matches the base word with a potential answer and assigns a value based on the relationship of the potential answer to the base word, users natural language, abstract and col., 1 line, 65), and sorting the plurality of help files based at least in part on a taxonomic category assigned to said element (such as, classifying the base word as one of a verb base word and a non-verb base word, Richards claim, 4).

Per (b), Moore disclose an action element which is delineated as being affiliated with more than one taxonomic category and assigning a second taxonomic category to a first word selection from a set of word selections (example, a new document control object associate with the template document, see paragraph [0034-0035]). Moore in view of Richards further disclose an action element which is delineated as being affiliated with more than one taxonomic category and assigning a second taxonomic category to a first word selection from a set of word selections; character string entries for such phrases as "get rid of," "take out," "remove," "nuke," and "deleting" are all associated with a word number value representing the base word "delete." In this manner, slang, jargon, and other user terminology are capable of being extracted from the user-defined query and associated with a smaller set of base words which, (Richards Col., 6 lines, 25-30).
